

Zinc Plating Coated Customized Precision Machined Parts for Diverse Applications OEM

Basic Information

Place of Origin: guangdonghuizhou

Brand Name: ywyModel Number: cnc101

Product Specification

Coating: Powder Coating, Zinc Plating, Etc.

Lead Time: 7-15 Days
 Precision: High Precision
 Tolerance: ±0.01mm
 Processing Method: CNC Milling

Application: Industrial, Automotive, Etc.

Size: CustomizedService: OEM/ODM

• Highlight: Zinc Plating Precision Machined Parts,

Customized Precision Machined Parts,

OEM Precision Machined Parts

Product Description:

Our CNC milling machines are equipped with cutting-edge technology that enables us to produce machined parts with a tolerance of ± 0.01 mm. This ensures that our products are highly accurate and can be used for a wide range of applications.

Our CNC milling parts are available in a variety of surface finishes, including polishing, anodizing, plating, and more. This allows you to choose the finish that best suits your needs and preferences.

At our company, we offer OEM/ODM services, allowing you to customize your CNC milling parts to meet your specific requirements. Whether you need a specific shape, size, or material, our team of experts can help you design and manufacture the perfect product for your needs.

Our CNC milling parts are ideal for a wide range of industries, including automotive, aerospace, medical, and more. We take pride in our ability to provide high-quality products that meet the needs of our customers, no matter what industry they are in.

So why wait? If you need high-precision machined parts that are manufactured using the latest CNC milling technology, look no further than our CNC milling parts. Contact us today to learn more about our products and services!

Features:

Product Name: CNC Milling Parts

Size: Customized

Processing Method: CNC milling
Application: Industrial, Automotive, Etc.
Material: Aluminum, Steel, Stainless Steel, Etc.
Surface Finish: Polishing, Anodizing, Plating, Etc.

The CNC Milling Parts are computer numerical control machining parts that are designed with precision milling parts. They are also known as numerically controlled machining parts. These parts are ideal for use in industrial and automotive applications, and are made from a variety of materials including aluminum, steel, and stainless steel. They can be customized to meet specific size requirements and are finished with a range of surface finishes such as polishing, anodizing, and plating.

Technical Parameters:

Application	Industrial, Automotive, Etc.
Service	OEM/ODM
Size	Customized
Equipment	CNC Milling Machine
Lead Time	7-15 Days
Coating	Powder Coating, Zinc Plating, Etc.
Tolerance	±0.01mm
Processing Method	CNC Milling
Surface Finish	Polishing, Anodizing, Plating, Etc.
Packaging	Carton, Wooden Case, Etc.

Applications:

These CNC milling parts are available in a range of coatings, including powder coating and zinc plating. This makes them ideal for use in a variety of applications, from industrial machinery to consumer products. The custom sizing of these parts means that they can be used in a range of different scenarios, making them a versatile option for any project.

Our CNC milling parts are also available in a range of surface finishes, including polishing, anodizing and plating. This gives you the flexibility to choose the finish that best suits your needs and ensures that your parts look and perform at their best.

Our CNC milling parts are packaged in a variety of ways, including cartons and wooden cases. This ensures that your parts are protected during shipping and arrive in perfect condition.

Overall, our ywy CNC Milling Parts are a high quality and versatile option for anyone looking for computer numerical control milling parts. With their high precision and custom sizing, they are perfect for a range of applications and scenarios.

Customization:

Product Customization Services for CNC Milling Parts

Our CNC Milling Parts are designed and manufactured with precision and accuracy, using computer-aided machining and manufacturing technology. We offer product customization services to meet the unique needs and specifications of our customers.

Brand Name: ywy
Model Number: cnc101

Place of Origin: guangdonghuizhou

Material: Aluminum, Steel, Stainless Steel, Etc.

Size: Customized

Application: Industrial, Automotive, Etc. Coating: Powder Coating, Zinc Plating, Etc.

Tolerance: ±0.01mm

Our product customization services cater to various industry needs, including industrial and automotive applications. We can create highprecision machined parts that meet your specific requirements and standards. Our CNC Milling Parts are available in various materials, sizes, and coatings to suit your needs.

Support and Services:

Our CNC Milling Parts product is supported by a team of dedicated technical support professionals who are available to assist you with any questions or issues you may have with your product. Our support services include:

Expert troubleshooting and problem resolution

Comprehensive product documentation and manuals

Software updates and patches

Training and educational resources

Warranty and repair services

We are committed to providing the highest level of support to ensure that your CNC Milling Parts product operates at its best and meets your needs. Contact us for more information on our support services.

FAQ:

- Q: What is the brand name of the CNC milling parts product?
- A: The brand name of the CNC milling parts product is ywy.
- Q: What is the model number of the CNC milling parts product?
- A: The model number of the CNC milling parts product is cnc101.
- Q: Where is the CNC milling parts product manufactured?
- A: The CNC milling parts product is manufactured in Guangdong, Huizhou.
- Q: What materials are the CNC milling parts made of?
- A: The CNC milling parts can be made of various materials such as aluminum, brass, steel, and plastic depending on the customer's requirements.
- Q: Can the CNC milling parts be customized?
- A: Yes, the CNC milling parts can be customized according to the customer's specifications.
