

Customized Industrial Precision CNC Machined Parts with Polishing Finish

Our Product Introduction

For more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: cnc101

Product Specification

- Application: Industrial, Automotive, Etc.
- Surface Finish: Polishing, Anodizing, Plating, Etc.
- Packaging: Carton, Wooden Case, Etc.
- Size: Customized
- Service: OEM/ODM
- Coating: Powder Coating, Zinc Plating, Etc.
- Processing Method: CNC Milling
- Precision: High Precision
- Highlight: **Industrial Precision CNC Machined Parts,
Customized CNC Machined Parts,
Polishing Finish CNC Machined Parts**

Product Description

Product Description:

Our Computer Aided Manufacturing Parts are made from a variety of materials such as aluminum, steel, stainless steel, and more. Each material has its unique properties and advantages, and we can help you choose the best one for your specific needs. Our CNC Milling Parts are manufactured using the latest Computer Aided Manufacturing technology, which ensures that each part is produced with extreme accuracy and precision. This process allows us to produce complex shapes and designs that would be impossible to achieve with traditional manufacturing methods. The surface finish of our parts can be customized to your exact specifications. Whether you need a polished finish, anodizing, plating, or any other surface finish, we can provide it for you. Our CNC Milling Parts are available in various packaging options such as cartons, wooden cases, and more. We take extra care to ensure that each part is packaged and protected during transportation to prevent any damage or defects. Our lead time for CNC Milling Parts is 7-15 days, which means you can expect your parts to be delivered to you within a reasonable timeframe. We understand that time is of the essence when it comes to manufacturing, and we do our best to deliver your parts as quickly as possible without compromising on quality. Trust us for your Computer Aided Manufacturing Parts needs. Contact us today to learn more about our CNC Milling Parts or to request a quote.

Features:

Product Name: CNC Milling Parts
Application: Industrial, Automotive, Etc.
Material: Aluminum, Steel, Stainless Steel, Etc.
Precision: High Precision
Tolerance: $\pm 0.01\text{mm}$
Lead Time: 7-15 Days
Keywords: Computer Programmed Machining Parts, Computer Numerical Control Milling Parts, High-Precision Machined Parts

Technical Parameters:

Equipment	CNC Milling Machine
Service	OEM/ODM
Lead Time	7-15 Days
Surface Finish	Polishing, Anodizing, Plating, Etc.
Packaging	Carton, Wooden Case, Etc.
Size	Customized
Application	Industrial, Automotive, Etc.
Tolerance	$\pm 0.01\text{mm}$
Material	Aluminum, Steel, Stainless Steel, Etc.
Coating	Powder Coating, Zinc Plating, Etc.

Applications:

Our CNC Milling Parts are designed to be used in a variety of applications, including industrial and automotive settings. We offer a wide range of sizes to accommodate your needs, and our parts are customized to meet your exact specifications. Our products are made in Guangdong Huizhou, and we offer both OEM and ODM services to our customers. We pride ourselves on our attention to detail and our commitment to providing the best possible customer service. Our CNC Milling Parts are available with a variety of coatings, including powder coating and zinc plating. This ensures that our parts are protected from corrosion and other types of damage, making them ideal for use in harsh environments. Our CNC Milling Parts are made with a tolerance of $\pm 0.01\text{mm}$, ensuring that they are precise and accurate. This makes them ideal for use in applications where precision is key, such as in the aerospace industry. Whether you need numerically controlled milling parts for your industrial or automotive needs, ywy has you covered. Our products are made with care and precision, ensuring that you receive the best possible parts for your needs.

Customization:

ywy CNC Milling Parts to your specific needs with our product customization services. Our **numerically controlled milling parts** are designed with precision and accuracy in mind, with a tolerance of $\pm 0.01\text{mm}$ to ensure the highest

quality results. Choose from a variety of coatings such as powder coating and zinc plating, as well as packaging options including cartons and wooden cases. Our **precision milling parts** are processed using the latest **CNC milling** technology to ensure consistency and reliability. Our lead time for customization is 7-15 days, so you can get your customized parts quickly and efficiently. Contact us today to start customizing your CNC milling parts.

Support and Services:

Our CNC Milling Parts product is backed by comprehensive technical support and services to ensure optimal performance and reliability. Our team of skilled technicians and engineers are available to provide assistance with installation, maintenance, and troubleshooting to help you get the most out of your investment.

We also offer customization services to meet your unique needs and specifications. Our state-of-the-art manufacturing facility and advanced equipment allow us to produce high-quality, precision parts that meet the most demanding requirements.

Whether you need assistance with selecting the right parts for your application, optimizing your machining processes, or resolving technical issues, we are here to help. Contact us today to learn more about our product technical support and services.

Packing and Shipping:

Product Packaging:

All CNC milling parts will be packed in individual plastic bags to prevent scratches and damage during transportation.

Multiple parts will then be packed in a sturdy corrugated cardboard box with foam padding to ensure maximum protection.

The box will be labeled with the product name, quantity, and any specific handling instructions.

Shipping:

Our standard shipping method is via UPS ground, but we can accommodate specific requests for other carriers or expedited shipping.

Shipping costs will be calculated at checkout based on the shipping destination and the weight and dimensions of the package.

Customers will receive a tracking number via email once the package has been shipped.

FAQ:

Q: What is the brand name of the CNC Milling Parts product?

A: The brand name of the CNC Milling Parts product is **ywy**.

Q: What is the model number of the CNC Milling Parts product?

A: The model number of the CNC Milling Parts product is **cnc101**.

Q: Where is the CNC Milling Parts product manufactured?

A: The CNC Milling Parts product is manufactured in **Guangdong Huizhou**.

Q: Does the CNC Milling Parts product come with a warranty?

A: The warranty information is not available at this time. Please contact customer service for more information.

Q: Can the CNC Milling Parts product be customized?

A: Yes, the CNC Milling Parts product can be customized. Please contact customer service for more information.
