

Painting Computer-Numerically-Controlled Parts CNC Machined Service With Customized Design

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: Guangdong, China
- Brand Name: yuanwenyu
- Certification: 1
- Model Number: 1X893, OEM
- Minimum Order Quantity: 50 pieces
- Price: \$2.35 - \$12.68/pieces
- Packaging Details: EPE foam/ Anti-Rust Paper/ Stretch Film/ Plastic bag +Carton
- Delivery Time: 1
- Payment Terms: 1
- Supply Ability: 1000000 Piece/Pieces per Month

Product Specification

- MOQ: 1 Piece
- Quality Control: 100% Inspection Before Shipment
- Surface Treatment: Anodizing, Plating, Painting, Etc.
- Size: Customized
- Lead Time: 7-15 Days
- Delivery Method: DHL, FedEx, UPS, Etc.
- OEM/ODM: Acceptable
- Processing Method: CNC Machining, Turning, Milling, Etc.
- Highlight: **Computer-Numerically-Controlled Parts, Painting CNC Machined Service, Customized Design CNC Machined Service**

Product Description

Product Description:

Our Computer-Numerically-Controlled parts are made using state-of-the-art technology and machinery that allow us to create parts with incredibly tight tolerances and intricate designs. The CNC machining process involves using a computer to control the movement of the machine tools, resulting in parts that are highly precise and accurate.

We offer a wide range of surface treatments for our CNC machined parts, including anodizing, plating, painting, and more. This allows us to create parts that not only meet your functional requirements but also meet your aesthetic preferences.

All of our CNC machined parts undergo rigorous quality control testing to ensure that they meet our strict standards for performance and reliability. We inspect each part thoroughly before shipment to ensure that it meets your requirements and specifications.

Our CNC machined parts are available in both standard and customized packaging options, depending on your needs. We offer a minimum order quantity of 1 piece, making it easy for you to order the exact number of parts you need.

In summary, our CNC machined parts are the perfect solution for anyone looking for high-quality, precision-made components. With a variety of materials and surface treatments available, we can create parts that meet your exact specifications. And with our rigorous quality control process, you can be confident that you're getting a product that will perform to your expectations.

Features:

Product Name: CNC Machined Parts

Size: Customized

Delivery Method: DHL, FedEx, UPS, Etc.

Lead Time: 7-15 Days

Surface Treatment: Anodizing, Plating, Painting, Etc.

MOQ: 1 Piece

Our CNC Machined Parts, also known as Computerized Numerical Cutting parts, Computer-Numerically-Controlled parts, and Numerically-controlled machining parts, are customizable in size and come with a variety of surface treatments, such as anodizing, plating, and painting. We offer fast delivery through DHL, FedEx, UPS, and other carriers, with a lead time of 7-15 days. Our MOQ is only 1 piece, allowing you to order exactly what you need.

Technical Parameters:

Product Name:	Computerized Numerical Cutting parts
Quality Control:	100% Inspection Before Shipment
Packaging:	Standard Export Carton Or Customized
Material:	Aluminum, Steel, Brass, Etc.
Application:	Automotive, Aerospace, Medical, Etc.
Drawing Format:	PDF, DWG, IGS, STEP, Etc.
MOQ:	1 Piece
Surface Treatment:	Anodizing, Plating, Painting, Etc.
Delivery Method:	DHL, FedEx, UPS, Etc.
OEM/ODM:	Acceptable
Lead Time:	7-15 Days

Applications:

The CNC Machined Parts are used in many different applications, including aerospace, automotive, electronics, medical, and industrial machinery. In the aerospace industry, these parts are used to create precision components for aircraft engines, landing gear, and other critical flight systems. In the automotive industry, the computerized machining parts are used to create high-performance engine parts, suspension components, and other critical automotive systems. In the electronics industry, the parts are used to create intricate components for smartphones, laptops, and other electronic devices. In the medical industry, the parts are used to create specialized surgical instruments and diagnostic equipment. In the industrial machinery sector, the parts are used to create high-precision components for heavy machinery, pumps, and other industrial systems.

The CNC Machined Parts are versatile and can be used in a variety of scenarios. They are available in custom sizes to meet the specific needs of different industries and applications. The product is also surface treated using processes such as anodizing, plating, painting, and more, to ensure maximum durability and performance. Quality control is a top priority, and all parts undergo 100% inspection before shipment. The company also offers a MOQ of 1 piece and tolerance of $\pm 0.01\text{mm}$ to ensure that customers receive only the highest quality parts.

The packaging details of the CNC Machined Parts include EPE foam, anti-rust paper, stretch film, plastic bags, and cartons to ensure safe and secure delivery. The delivery time is fast, and the payment terms are flexible. The company can supply up to 1000000 pieces per month, making it an ideal choice for large-scale projects. In summary, the yuanwenyu CNC Machined Parts are a reliable and high-quality option for anyone looking for precision computer-controlled machining parts.

Customization:

Product Customization Services for CNC Machined Parts

Our product, manufactured under the brand name **yuanwenyu**, includes computerized machining parts, computerized numerical cutting parts, and precision machined parts. Our model numbers include 1X893 and OEM, and they are made in Guangdong, China.

We offer certification and our minimum order quantity is 50 pieces, with a price range of \$2.35 - \$12.68 per piece. Our packaging details include EPE foam, anti-rust paper, stretch film, plastic bag + carton. Our delivery time is 1 and payment terms are flexible. We have a supply ability of 1000000 Piece/Pieces per month.

Our CNC machined parts are widely used in the automotive, aerospace, medical, and other industries. They are made of materials such as aluminum, steel, brass, etc., with a tolerance of $\pm 0.01\text{mm}$. We provide 100% inspection before shipment to ensure quality control. Our processing method includes CNC machining, turning, milling, etc.

Support and Services:

Our CNC Machined Parts product comes with comprehensive technical support and services to ensure that you get the most out of your purchase. Our team of experts is always available to answer any questions you may have about the product, including its installation, operation, and maintenance. We also offer training and consultation services to help you optimize the performance of your CNC Machined Parts. Our technical support and services are designed to provide you with peace of mind, knowing that we are always here to assist you with any issues that may arise.

Packing and Shipping:

Product Packaging:

Each CNC machined part will be carefully packaged in a protective foam layer to prevent any damage during transportation. The parts will be then placed in a sturdy cardboard box and sealed with high-quality packing tape. The dimensions of the box will be tailored to the size of the parts to ensure maximum protection during shipping.

Shipping:

We offer worldwide shipping for our CNC machined parts. We use trusted shipping carriers to ensure timely and secure delivery. The shipping cost will depend on the weight and size of the package, as well as the destination. Once your order is processed, we will provide you with a tracking number so you can monitor your shipment's progress.

FAQ:

Q1: What is the brand name of the CNC machined parts?

A1: The brand name of the CNC machined parts is yuanwenyu.

Q2: What is the minimum order quantity for the CNC machined parts?

A2: The minimum order quantity for the CNC machined parts is 50 pieces.

Q3: What is the price range for the CNC machined parts?

A3: The price range for the CNC machined parts is between \$2.35 and \$12.68 per piece.

Q4: What are the packaging details for the CNC machined parts?

A4: The packaging details for the CNC machined parts include EPE foam, anti-rust paper, stretch film, plastic bag, and carton.

Q5: What is the delivery time for the CNC machined parts?

A5: The delivery time for the CNC machined parts is 1 day.
